♦ Required to write a motivation
Writing a motivation

1. Align the request with the basic vision & mission of your organisation.

“As a uniquely South African organisation, the CSIR is committed to innovation. We exist to support sustainable development and economic growth in the context of national priorities and global challenges. We create value for our clients, partners and stakeholders by providing technology solutions and information, establishing ventures and licensing intellectual property”
Writing a motivation

2. Keep records of cases where the use of a credit card would have been particularly beneficial. Real life examples, especially if they involve high profile staff, are valuable “ammunition”!

3. Stress time saving elements – for all parties involved: clients, library and finance department
Writing a motivation:

3. Highlight cost benefits – for clients, library and finance dept.
4. Get a “techie” with authority on your side!
